Division class

Fee 300 sek

- Players are divided into groups (preliminarily 6–8 players/division) according to ranking points, with the highest ranked playing in division 1, etc.
- No consideration of gender or age, the idea is that you should be able to play against players as equal as possible.
- Since players outside of Sweden do not have Swedish ranking points, we will place you in the appropriate class depending on your results during the week.
